EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wei Te Chung on 08/17/2004.

The application has been amended as follows:

Claims 4, 16, and 18 have been cancelled.

Claim 1, line 11 after "outwardly" insert from a new line -- wherein the housing comprises a pair of supports extending beyond the mating face, and wherein the retention mechanism comprises a pair of mating arms received in the supports and adapted for engaging opposite sides of the electronic card --.

Claim 5, line 1, change "claim 4" to --claim 1--.

Claim 12, line 9 after "thereof" insert from a new line -- said retention mechanism further comprising a pair of mating arms extending upwardly from an opposite end of the main body and adapted for contacting with a mating edge of the electronic card, wherein the main body includes a first horizontal portion connecting with the legs, a second vertical portion connecting with the mating arms and a U-shaped intermediate portion interconnecting the first and the second portions --

Claim 17, line 1, change "claim 16" to --claim 12--.

Claim 19, line 1, change "claim 18" to --claim 12--.

The following is an examiner's statement of reasons for allowance:

No prior art has been found to anticipate or render obvious the presently claimed subject matter.

Specifically, none of the prior art of record discloses the combination of the limitations presented including the main body having a first horizontal portion connecting with the legs, a second vertical portion connecting with the mating arms and a U-shaped intermediate portion interconnecting the first and the second portions (claim 12).
